In-House and On- Site Tyre Repairs

Trans Afrika Tyres undertakes a full spectrum of **tyre repairs from** the smallest commercial vehicle tyre up to the largest mining application. Our repair processes proved extremely **cost effective**. We carry out on-site repairs to Mining Tyres as well as within our factories. Rema Tip Top produces the toughest, most reliable Thermo - press Equipment within this demanding industry. These hot vulcanizing machines are engineered to repair the tread, shoulder, sidewall injuries of radial or cross ply OTR tyres. We Offer two types of Repairs which are:

1. Standard Repairs (Small cuts or penetration, bolts, nails etc.)
2. Ultra Tyre Repairs (Large Sidewall Damages, Stone Cuts, Crown Penetration

ULTRA TYRE REPAIRS

Tyres that will be deemed scrap will be through large cuts or object penetration will be repaired using our EM Chemvulc Large Ultra Repair Machines. All Broken cords, Belt Separation will be salvaged and brought back to life with a guarantee between 1000-1500 hours achieved by thoroughly repaired Tyres

***On-Site Tyre Repairs** Tyres will be repaired at your site (ON-SITE) thus eliminating unnecessary delays in transporting tyres to and from your workshops.*

TYRE REPAIR ANALYSIS

Over and above Tyre Repairing, we conduct **Tyre repair analysis** regularly on a six monthly basis) to:

- ▢ Compare average repair life with new tyre life,
- ▢ Quantify the reduction in new tyre usage that results from repairing,
- ▢ Determine the cost economics of repairing. A proper economic analysis would include allowance for the additional Otr/truck tyre-change downtime cost associated with operating the repaired tyres.

WARRANTY

All our tyre brands carry a **12 month warranty** against manufacturing related tyre failures that will be adjusted prorata to the usage at the time of claim and our Repairs are guaranteed meaning any premature failures will be done for free.

- Repair rather than replace Agricultural ,Truck & OTR tyres
 - Up to date technology and innovative repair techniques
 - 1000 hours guaranteed extra life on fully repaired OTR tyres
- ▢ Agricultural ,Truck & OTR tyre repairs throughout Zimbabwe

When you choose **Trans Afrika Tyres**, you choose:

- ✓ Quality that surpasses expectations.
- ✓ Reliability that keeps you rolling.
- ✓ Innovation that sets the pace in the industry

Join us in this journey of tire repair perfection. Let's stay connected, and together, we'll keep your wheels turning safely

TRANS AFRIKA FLEET SOLUTIONS

EMERGENCY BREAKDOWN SERVICES MOBILE TYRE REPLACEMENT

Trans Afrika Tyres' breakdown service is independent of any specific manufacturer. This means that we have products available in all quality and price categories. We also keep niche sizes in stock for your convenience. Unlike brand-specific breakdown service providers, we can flexibly install different tire brands in case of a breakdown saving you additional cost and time advantages.

Quick assistance

Thanks to our dense service network in Zimbabwe, Zambia and DRC, our mobile service technicians can reach your breakdown vehicle in a very short time. This means that you can often continue your journey within less than two hours after contacting our Breakdown Service.

Advantages of 24/7 Breakdown Service

Our breakdown service vehicles are fully equipped mobile workshops. This allows us to perform almost all tire services, such as mounting, demounting, and

balancing, directly at the breakdown location. This ensures that downtime is kept to a minimum and your vehicle can quickly get back on the road.

Centralized billing

The Breakdown Service is a component defined within the framework service level agreement (SLA) that we establish together with you. This SLA contains all vehicle data of your truck fleet for quick and error-free breakdown assistance. In addition, billing is done centrally and transparently, providing all information about the breakdown incident and the service provided, regardless of where the breakdown occurred – even abroad!

Your Benefits Services :

- Fleet consulting
- Digital fleet management
- One-Stop-Service
- Mobility Solutions
- Sustainability concepts

Contracts – Transport & Fleet On-Site Tyre Management

Trans Afrika Tyres & fleet management is committed to collaborating with you to gain a thorough understanding of your distinct operational needs. We will work hand in hand with your organization by deploying a highly skilled team to your premises. This dedicated team will efficiently oversee all aspects of your tyre inventory and maintenance requirements, ensuring optimal performance. Our partnership will be governed by a signed service level agreement, guaranteeing the highest standards of service delivery

OUR ON-SITE SERVICES

- ❑ In-depth tyre surveys and weekly scrap tyre analysis
- ❑ Monitoring and maintenance of fleet tyre pressures.
- ❑ Controlling and maintaining tyre stock levels.
- ❑ Increasing maintenance levels within your fleet to reduce costly breakdowns.
- ❑ Trans Afrika Tyres will recommend the correct tyre and tread pattern for your operation.
- ❑ Trans Afrika Tyres offer comprehensive reporting to keep you in control and informed.

TYRE BAY MANAGEMENT

A significant part of our Tyre Management Strategy requires we build a Team Management approach to ensure the success of achieving Best Practice Tyre Management Maintenance. We recommend that jointly we make the necessary decisions with our clients to improve the tyre operating conditions and implement the tyre strategy to improve tyre life. **Trans Afrika Tyres** is committed to the long term future of our customer operations, we are committed to Provide skilled on-site tyre personnel to provide solutions in every aspects of Tyre Management and Maintenance, which includes but not limited to the following services:

- Annual Tyre forecasting

XCTMS TYRE MANAGEMENT SOFTWARE (Tyre Tracking)

Revolutionising Truck Tyre Management With Mobile App Convenience

Monitoring and managing your truck fleet just got simpler and more efficient with XCTMS Tyre Management Software.

All your data at a click of a button

Data-driven insights

User-friendly

LEARN MORE

enquire.xctms.net

WHAT IS XCTMS

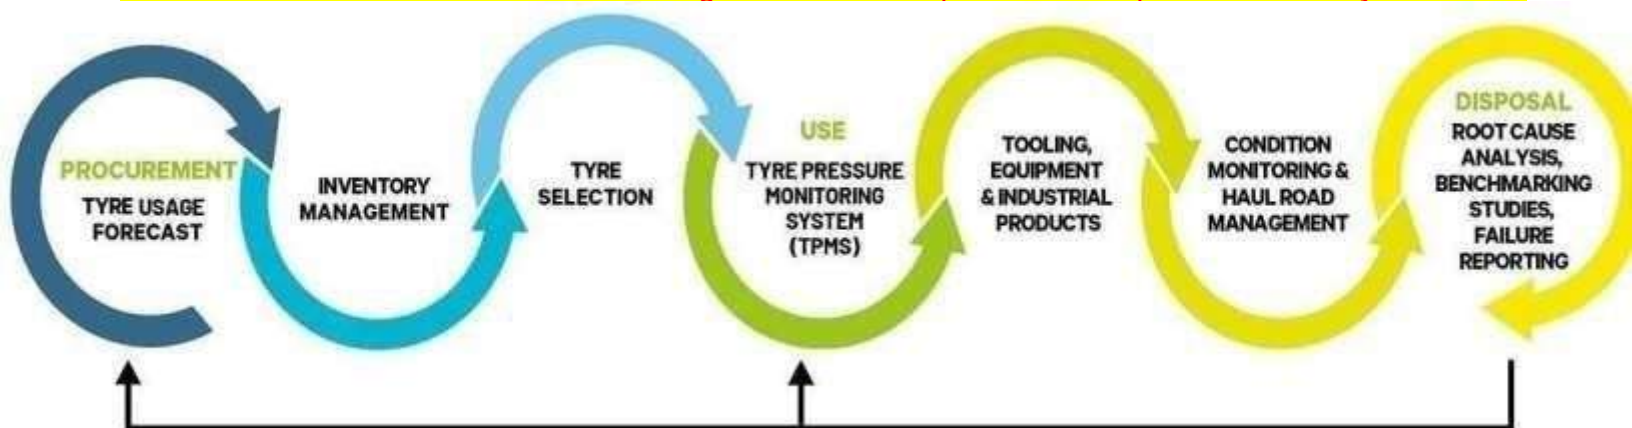

XTMS is a Tyre Management Software that helps you monitor your fleet tyres effectively and easily via an Online App. **XTMS** is the most intelligent independent Tyre Management Software in the Market today & held in a secure cloud environment backed by server-Class Performance and powered by Microsoft. It is a comprehensive tyre management system that provides for the maintenance, management and reporting of tyres on all registered Vehicles and Sites or depots for multiple fleets. The System manages every aspect of a tyre life cycle from purchase to disposal. Cost per Kilometre, Value by tyre brand, tread, fuel savings to legal compliance, safety critical monitoring.

✓ Theft and fraud detection.

TYRE MANAGEMENT REPORTS OF XTMS

1) Track record of all running tyres (It monitors a tyre from cradle to grave) i.e. from acquisition to disposal

.However, we are able to create and design customised reports that are personalized to your needs.

PS2 Fluid – Tyre Sealant

PS2 Tyre Fluid™ is an internal sealing compound used in any pneumatic tubed or tubeless tyre. **PS2** contains millions of microscopic fibres, it forms a permanent seal lasting for the legal life of the tyre. Even in the most hazardous environments, tires filled with **PS2 Tyre Fluid** will never go flat. Despite cuts and punctures, filled tires will keep performing - increasing productivity and eliminating costly downtime for field operators. The greatest advantage of **PS2 Tyre Fluid** over other No Flat options, including solid aperture tyres, is the smoother ride as a result of a substantially lower G-force transmission. Higher G-force transmission can cause operator injury and premature wear and tear on Truck / equipment components.

PS2 TYRE FLUID™ will seal:

- *O Rings leaks*
- *Poor repairs*
- *Porosity*
- *Bead leak*
- *Leaking Valve*
- *Foreign Object (has to be removed ASAP)*
- *Slow leaks*

High speed, over load and Poor Pressure maintenance, will not reduce your down time, but there are certain elements over which we have control.

Our product's viscosity is very high and will Stabilize your Tyre Pressures within immediate effect, for minimum of 4 months and tyre life span pressure lost occur, which is improbable a tyre can be re-inflated again to the prescribed pressure. Our product has a very strong Rust Defender present and is compatible to Nitrogen. Once you have confidence in treated tyres, tyre failures can only be blamed to drivers behavior or road conditions. **PS2 Fluid** dominates South African market with 9 factories/License in RSA and 3 internationally Dubai, Namibia and Zambia.

Visit: https://www.youtube.com/watch?v=GKFrMzQ1_nI&t=30s&authuser=0

RUN YOUR TYRES SMOOTH, MAINTENANCE FREE

- | | |
|---|---|
| - will keep tyre pressure constant | - easy to fit through valve for pour application |
| - will allow tyres to run cooler | - will perform on any tyre as long as it is tubeless |
| - will seal all leaks: o-ring, poor repairs, porosity & foreign objects | - only formulated for earth moving, commercial and industrial vehicle tyres |
| - will save time on pumping tyres | - productivity is the KEY word |
| - will reduce fuel consumption | |
| - will reduce downtime over 90% | |

TRAINING

Trans Afrika Tyres strongly believes in ensuring adequate training and improving occupational skills. **Tyre Related Training Courses** are presented to delegates by our own **Trans Afrika Tyres Accredited Industry-Specific Facilitators**. For **Trans Afrika Tyres**, having each employee **understands** the nature of the products, and more importantly the **end user's application** of those products, is essential to the day-to-day running of the business. We offer Operator/ Driver training on tyre usage maintenance and care with the purpose of **developing** the skills of all **personnel**, including the **employees of our contracted Customers**. Continual training delivers a high reward potential by providing effective expertise over a broad base to employees and management. The advantages include increased knowledge, capacity and **career advancement**.

OTR & TRUCK TYRE TRAINING

Our OTR & Truck Tyre Training modules aim to:

Drastically improve the lack of safety standards, procedures and methods

- Address inadequate tools and equipment used by Tyre Bay personnel
- Address poor supervisory and management skills of Tyre Bay senior personnel

Environmental Occupational Health & Safety

Health, Safety and Environmental (HSE) Management is an integral and essential part of the way we do our business and is considered an equal part of the wider system for the management of our business.

Health, Safety and Environmental Policy

Our goal is to protect our people, the public, our property and the environment in which they work and live. It is a commitment that is in the best interests of our customers, our employees and all other stakeholders.

It is possible to run all operations without injuries or damage to equipment or the environment:

- We will comply with all applicable laws and relevant industry standards of practice.
- We will continuously evaluate the Health, Safety and Environmental (HSE) aspects of our equipment and services.
- We believe that effective HSE management is good business and we are committed to the continuous improvement of HSE management practices.
- From top management through to entry level, everyone is responsible and accountable for HSE.

Truck & Bus Tyres

We are committed to the integration of HSE objectives into our management systems at all levels. This will enhance our business success by reducing risk and adding value to our services.

Billy Kapfumvuti (Executive Director) Bachelor of Business Management Hons-

A chartered Marketer who collectively holds a proven successful history based on market knowledge, professional management and integrity in Industry & Commerce having worked for National Tyres Services, Quality Tyres and Tyre Treads at a Senior Managerial level before embarking on setting up private businesses. His key responsibilities are Corporate Governance providing leadership and Strategic direction to the board. Billy is a co-founding director at Trans Afrika Tyres whose primary responsibility involves the procurement and timeous supply of stock from local and international suppliers, as well as establishing and maintaining relations with them. He has over Thirty years of automotive market research experience in the Zimbabwean & South African market where he developed the desire for a new business venture. After much deliberation and research, Billy unearthed major opportunities in both the Earthmoving & Mining tyre business, not so much as a supplier, but more in providing dedicated hands on service that he felt was lacking among the major players in the market.

Sandra Shinya (Executive Director) +263 716 105 966 - Marketing

A Seasoned Professional who worked for Tyre Treads and Taita Trading. **Sandra** is a devoted Marketing person who possesses more than 10 years of experience she obtained during his long stint with Tyre Treads and Taita Trading where she worked in Planning & Information for their various products. Her vast experience working on the clients side makes it easier for her to deliver quality-on-time to all the clients she services. **Sandra** ensures that all company dealings with suppliers, clients and other stakeholders are legitimate, honest, and open. She is, overall, in charge of our system of rules, practices and processes by which the company is directed and controlled

Prim Bezuidenhout (Non - Executive Director) +263 732 713 606 - Finance

A results-driven leader in finance and commercial business partnering with experience in excess of 15 years, Prim started her career at the FMCG Company, Unilever as a management trainee in 1999. During her tenure she held various finance positions of increasing scope and complexity in numerous Unilever groups. As a result, Prim has managed the accounting function across multiple accounting disciplines, from factory accounting to financial accounting and cost & management accounting.

Brooklyn Kapfumvuti (Non - Executive Director) +263 718713606 – Brooklyn is an avid sales and marketing person who possesses with 2 years of experience he obtained during his long stint with Turnal Holdings where he worked as a sales representative for their various products. He works with Sandra, focusing on the national sales and distribution of our products. His experience working on the client side makes it easier for him to deliver quality-on-time to all the clients he services.
